

911

Assembled Roving for Chopping

Product description

911 is assembled roving designed for chopped strand mats, specifically used for producing powder and emulsion binder chopped strand mats. It features excellent choppability and dispersibility, with good compatibility with unsaturated polyester resins and vinyl ester resins. This roving is suitable for manufacturing conventional powder and emulsion binder chopped strand mats.

Product features

Item	Linear density variation	Moisture content	Sizing content	Breakage strength
Unit	μm	%	%	(N/tex)
Test method	ISO 1889	ISO 3344	ISO 1887	ISO 3341
Standard range	± 5	≤0.15	0.35~0.65	120±20

Technical Parameters

1. Excellent choppability and dispersibility.
3. Fast wet-out.

2. Good anti-static properties.
